

October, 2018

Dear valued Customer,

The purpose of this communication is to inform you that Safran Vectronix is phasing out the following product families:

TARSIOUS18

BIG 35

BIG 25

NiteSpot MR

NiteSpot 50

After decades of successful business with night vision equipment sold across the globe we have been facing an increasing price war in this market over the past several years. We have decided not to follow this trend since Safran Vectronix stands for quality and sustainability.

From January 1st, 2019 the Night Vision products listed on page 2 will be phased out.

The last day of support for these products will be December 31st, 2019. Spare parts and maintenance services will be still available after phase-out for another five years. Individual negotiations and agreements have priority over these terms.

If you have any questions, please contact your sales representative or Safran Vectronix Customer Support.

Patrick Drach
Director Marketing & Sales, VP

Night Vision products: phase out
