

WE'RE HIRING

The need for security is deeply rooted in mankind. It's good that there are forces that ensure more security and order in a changing world. Services and solutions from Safran Vectronix help to support these forces in their mission. Dedicated to target intelligence we are considered the world's leading supplier of state-of-the-art optronic equipment, systems and sensors for military and civil applications. 100 years of Swiss tradition, excellence in optics and precision engineering are reflected in our products. Customers in more than 90 countries rely on Safran Vectronix for Swiss quality, precision, and reliability.

We are interested in people who think and act creatively and in a team-orientated manner: people who will value a challenging future in an international environment. We would like to reinforce our team with a

Project Manager (f/m)

The Project Manager is responsible for all aspects of project execution according to our innovation process.

Main tasks:

- Project management of complex cross-functional product development projects
- Overall responsibility for project delivery
- Collaboration with Program management
- Team leadership, coaching and mentoring
- Perform reviews, lessons learned and pro-active risk management including controlling and reporting to steering board
- Stakeholder management
- Coordination of activities with Safran and international partners
- Active participation in the implementation of new project management methods and processes

We are looking for a person with a Bachelor or Master degree in a technical subject and broad technical knowledge. You possess at least 5 years of project management experience in an international, cross-functional R&D environment and have a solid understanding of various project management methods as well as both waterfall and agile methodology. Ideally, you have further education and a certification in project management. As a person, you are self-motivated and result-oriented with a pragmatic approach and focus on well-functioning teams. In addition, you are characterized by excellent communication skills and social competence. Fluency in English and German is mandatory.
